

Ref: FOI 2018 - 6	Date issued: 6 March 2018
Subject: If any delegates from Hull based companies/ factories have been to the workshops in the GLAA Academy.	
Question(s) asked and answer(s): If any delegates from Hull based companies/ factories have been to the workshops in the GLAA Academy? If yes then how many of them have been there? Also, information on how the GLAA Academy training improved the migrant workers' working situations in Hull (if any) or the country? Our response This information is not held by the Gangmasters and Labour Abuse Authority (GLAA). The GLA Academy ran the ' <i>Certificate in Professional Development: Investigating Modern Slavery</i> ' in conjunction with the University of Derby. As part of the agreed administration process for the course we issued the registration forms to the students, collated the data and submitted it to the University. The original form did not ask for any employer details or a job title. We do not hold any data or evidence relating to improving the migrant workers' working situations in Hull or the country as a result of attendance at the course.
